EDUCATION

Toronto Metropolitan University

Bachelor of Engineering in Computer Engineering

- Minors: Mathematics, Physics

Expected Graduation: 2029, CGPA: 4.20

EXPERIENCE

Robotics Researcher - ELIXIR Lab - Prof. Robin Chhabra

February 2026 – Present

Faculty of Engineering and Architectural Science at Toronto Metropolitan University

On-Site

- Investigating reinforcement learning approaches in robotic grasping with simulated and physical environments.
- Applying AI/ML methods towards robotic grasping in physics-based environments.
- Developing manipulation scenarios using Gazebo and ROS2 for state feedback.
- Working on sim-to-real transfer of robotic hand grasping strategies with varying object/environment conditions.

Child-Care Volunteer

February 2025 – April 2025

Kids Come First Childcare

Vaughan, Ontario

- Provided care and supervision for school-age children.
- Maintained a safe and organized environment.

TECHNICAL SKILLS

Languages: C++/C, Python, Java, JavaScript, Lua, Swift

Developer Tools: Linux, Git, Bash, CLI, Docker, CUDA

Robotics: ROS2, Gazebo

Embedded/Low-Level: Arduino, microcontrollers

Web: TypeScript, React, Tailwind, Node.js

PROJECTS

Portfolio Website | *React, TypeScript, Tailwind*

- Developed and deployed a fully responsive personal portfolio website from scratch.
- Built using React, TypeScript, and Tailwind v4.

2DoIt | *Swift*

- Currently developing a to-do list app for iOS using Swift.
- Implementing task organization, reminders, and productivity tracking.
